

Seminar 2016

Energy and signal flow in biomolecules

Professor Gerhard Stock
University of Freiburg
Physikalisches Institut
Biomolecular Dynamics

Research Interests

Free Energy Landscapes of Biomolecules

Allosteric communication in proteins

Energy transport in biomolecules

Data-driven Langevin Modeling

Vibrational Signatures of Biomolecular Dynamics

Nonadiabatic Dynamics

Maximum Caliber

Wednesday June 22, 2016

10:00 AM

Laufer Center Lecture Hall 101

Host: Ken Dill
